

H1

PRODUCT DESCRIPTION

Anti-corrosive for preserving cavities in injection moulds and other metallic surfaces in the food processing industry.

ADVANTAGES

- » Excellent corrosion protection
- » Protective substance inside the mould disappears after a few shots
- » Highly water-repellent
- » Non-spreading
- » H1 registered

APPLICATION

Clean and degrease spraying point thoroughly (VCM 20). Shake can well before use. Apply evenly and thinly. A thicker layer increases the corrosion protection.
