

### PRODUCT DESCRIPTION

Ideal for machining most ferrous and non-ferrous metals. The specially composed compound is compatible with water-miscible cutting fluids and improves the emulsion's performance. The high-performance mixture ensures optimal lubrication and cooling of the tool.

### ADVANTAGES

- » Prevents the formation of built-up edges and reduces the tool wear
- » For high-quality surfaces and high dimensional accuracy
- » Compatible with water-miscible cutting fluids
- » High profitability through low consumption
- » Sulphur and mineral oil free

### APPLICATION

Easy and targeted application directly on the area worked on or the tool.

Package	Content	 Pcs. / PU	No.	EUR
Aerosol can	400ml	1	VKF 96/ 1/ 400	< >
Aerosol can	400ml	12	VKF 96/12/ 400	< >
